

## About Us

Established in 2007 PV-Solarmarket was created to provide the professional solar module manufacturer or installer/integrator with a one stop shop for sourcing all solar related products.

We are the only company that to our knowledge publishes the prices of PV solar modules for sale on a website anywhere in the world. For the solar module manufacturer ·

- Solar wafers, solar cells and TCO coated toughened glass for sale without the need of signing three or five year contracts and paying large upfront fees·
- TUV certified junction boxes and EVA for sale from the best manufacturers in the world·
- All aluminium solar module frames for sale are designed and made to order with either 35, 44,45, 46, 48 or 50mm frame thickness·
- Turnkey ready crystalline and amorphous solar production lines for sale from 10MW to 500MW·
- Turnkey ready ingot, wafer and cell production lines for sale 10MW + also·
- Assistance with TUV, UL, CE and ISO certification For the commercial grid tied solar farm installer/integrator ·
- Monocrystalline, polycrystalline and amorphous silicon solar modules for sale from the top manufacturers in Europe and Asia some with prices set and guaranteed for one year ·
- Aluminium static and tracker frames at the most competitive prices in the world·
- All crystalline solar modules for sale having TUV and IEC certification·
- Every amorphous thin film module for sale has IEC 61646 certification ·
- All of the solar modules for sale carry a minimum two year warranty and a twenty or twenty five year power loss guarantee ·
- 100kW Grid connected solar inverters complete with TUV and CE certification·
- Most payment terms 100LC or T/T at sight of BOLs and flash reports ·
- Please note that the prices in the solar modules for sale section can be in either US Dollars or in Euros and any purchase must be made in the stated denomination·
- All prices quoted for monocrystalline, polycrystalline and amorphous silicon solar modules for sale are CIF unless otherwise stated·
- Minimum order for all solar modules for sale from our commercial department is 1x40ft container·
- All deliveries of solar modules are supported by BOLs, packing lists and flash test reports. For small on/off grid solar installers/ integrators·
- Monocrystalline, polycrystalline and amorphous silicon solar modules for sale at wholesale prices·
- Solar inverters and batteries for sale at wholesale prices·
- Made to measure rooftop, ground level and tracker solar module frame supports for sale·
- Solar modules/inverter/battery packages for sale delivered direct from the manufacturer·
- Professional product advice and installation support·
- Secure payment by credit card or Paypal

All prices quoted for monocrystalline, polycrystalline and amorphous silicon solar modules for sale are CIF unless otherwise stated.

Minimum order for all solar modules for sale is 1x40ft container

All deliveries of solar modules are supported by BOLs, packing lists and flash test reports
